License for Learning

The Education Foundation of Martin County (EFMC) would like to encourage Martin County residents to consider purchasing a “**Support Education**” specialty license plate. Each tag purchased or renewed in Martin County generates \$20 to the Education Foundation for educational enhancement programs not covered by tax dollars. These programs include classroom enrichment grants, professional development for teachers, mentoring programs, and programs to recognize outstanding teaching in Martin County’s public schools.

Please visit your local tax collector’s office to purchase the “**Support Education**” specialty tag or log onto www.License4Learning.com.

Remember, all proceeds stay right here in Martin County!
